

TOILET ROLL & PEANUT BUTTER BIRD FEEDER

Here's what you need:

toilet paper rolls

peanut butter

bird seed

string

knife

plate

Clean off any extra bits of paper from your toilet paper roll, then cover in a thin layer of peanut butter.

Pour out some bird seed onto a plate, then gently roll the toilet paper roll over the plate to pick up the bird seed.

Thread a piece of string through the roll and tie it into a loop.

Hang the feeder in your garden, on your balcony, or on a tree in the park.
